About Us

We, **Vaishno Packaging Solutions**, are one of the known brands in the industry for developing products like **Pouch Packaging Machine, Liquid Pouch Packaging Machine, Powder Filling Machine, Flow Wrap Machine etc.** We as a manufacturer and supplier, started our business with an aim of providing the high grade packaging machines in different models including single and multilane filling machines (twelve lane) for filling up products, like powder products like spices, tea, etc, (almost 500 sachets / pouch per minute, depends on the size and the fill weight), solid, liquid products like paste, ketchup etc (almost 1080 sachets / pouch per minute, depends on the size and the fill weight) and semi liquid products. Our manufacturing unit comprises modern technical machinery which is completely in compliance with the industry standards.

Pattern of sealing pouch and sachets are three and four-sided seal, center four corner seal, doypack, doypack with zip lock, stand up pouch as per the needs of customer.

Filling system- Gravimetric filling system, Volumetric cup filling system, Auger filling system, Multi head weigh metric filling system, Volumetric Piston dosing filling system and Load cell base filling system.

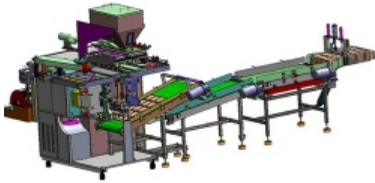

Our Target

We make sure that the operation of our machines is user-friendly and are easy to maintain. We aim to become a leading firm at global level too by offering the products such as Pouch Packaging Machine, Liquid Pouch Packaging Machine at best possible rates.

We Value Customers Money

The best in class products, which we offer to our clients are manufactured under the supervision of the well experienced quality management team. We promise to provide the items that will assure satisfaction to customers that they will never regret for the money that they have spent on buying our products. Our company understands the value of the hard-earned money and valuable time of customers, thus, make sure to complete the task as per the deadline and charge reasonable rates for products.
